

NavCoin | For Beginners

Is your business 'future ready'? More and more people are looking for ways to pay using their digital currency. If you want to stay ahead of the trend, now's the time to start accepting it at your store and online. NavCoin has the right payment solution for your business.

Get started here

Welcome! Here's a quick look at what you have do with NavCoin

1. Learn about NavCoin

NavCoin allow you to send/receive transactions, take ownership of your private keys, and if you use the NavCoin core wallet you can contribute to transaction validation on the network.

2: Choose your wallet

Your wallet is the main way to interact with your digital coins, and is where you go to send & receive NAV. There are different types of wallets - from 'full' wallets that give you complete control and allow you to participate in the NavCoin network, to 'thin' wallets that are easier to use.

3: Get NAV

Once you've chosen your wallet, there are a few ways to acquire NAV. The quickest of which is through a cryptocurrency exchange. You'll essentially send BTC to the exchange, and convert it into NAV. You can find NAV on several top exchanges - such as Binance, Bittrex and Poloniex.
